

Call for newsletter contributions

Newsletter ESA RN37

FROM: KATARZYNA KAJDANEK, NICCOLÒ MORELLI (ESA RN37 BOARD MEMBERS)

Dear Colleagues,

as we announced at the RN37 business meeting, we hereby present the Call for Contributions to the RN37 Newsletter (2023/1).

In 2023, the Newsletter will be hosted by the Colleagues from the Institute of Sociology at the Faculty of Social Sciences, [University of Wrocław](#) (PL).

We kindly invite you to submit material that you would like to share with the wider community interested in your perspective on what is currently happening in urban spaces and in the study of such spaces.

We very much hope that this initiative will allow us to get to know each other better, make new research contacts outside our own research centres, and encourage existing members and newcomers to become actively involved in the work of the RN37 network.

Call for newsletter contributions

We invite you to submit material:

- info on research programmes (ongoing and incoming), including calls for cooperation
- summaries of recent PhD theses
- reflections on recent articles (journal, media, newspaper) that could / should resonate with the research community
- reviews of books, etc.

And also:

- visual* materials (photos, photo essays, collages, sketches)
- voices from places - short urban stories from where you are, accompanied by visual* pieces

We are open to other types of materials you consider worth sharing with the community using the Newsletter platform.

* please make sure there are no copyright infringements

How to prepare the material?

Complete contributions should be sent to: rn37.esa@gmail.com, mentioning Newsletter 2023/1. Deadline for sending contributions is: December 23rd, 2022

Written contributions should not exceed 3000-4000 words with all add-ons. We do accept shorter written forms, though. Make sure to send the written material in .doc or .docx format to avoid mistakes in formatting.

Any visual materials should be send as attachments or, if too big, as links to virtual drives or should be sent using platforms for sending large files (e.g. weFile, etc.)

Please, feel free to circulate this invitation among potentially interested contributors outside ESA RN37 network.
